I. INTRODUCTION

Pac-Man is back in action with a completely new twist — **BOUNCE** power! Ready for a new generation of Pac-Man players, he can't wait for the chance to show off his new aerial maneuvers to the crowd!

You can play Pac-Mania by yourself or take turns with a friend, maneuvering the new Pac-Man through a world of 3-D mazes. Get ready for new challenges as Pac-Man enters the worlds of *Block Town*, *Pac-Man's Park*, *Sandbox Land*, and *Jungle Steps*. But watch out — Clyde, the "boss" ghost, has recruited the talents of three new ghosts, Sue, Funky and Spunky. It's gonna take all of Pac-Man's speed and cunning to outwit these annoying pests! Fortunately, Pac-Man has the help of two "special items"—a green and a red power pill. The green pill gives you temporary speed, and the red awards double points!

It's a whole new ball game for Pac-Maniacs!

II. GAME PLAY

Begin game play by choosing your level from among one of three playfield worlds: *Block Town*, *Pac-Man's Park* or *Sandbox Land* (*Block Town* is easiest and *Sandbox Land* is hardest). The amount of points you score depends upon the world you choose to play in.

Nintendo ENTERTAINMENT SYSTEM

Your goal: eat all dots and power pills in the mazes while avoiding persistent ghosts. Using the new BOUNCE power (A Button or B Button), you can bounce your way over ghosts to avoid being caught. Three new ghosts have been added to make sure that you don't have it too easy. Fortunately, you won't encounter these rivals of Pac-Man until you get to the more demanding worlds and mazes.

During play, if fruit and green/red power pills appear, you'll hear a "bonus available" sound. This lets you know that these valuable items are available in case you get so involved in the game that you don't see them. These items are worth from 1,000 to 10,000 points. Eat a green power pill to get extra speed. It lasts until you eat a red or white power pill and it expires, or until you lose a game life.

Two continues are offered to allow you to continue your progress without having to start back at the beginning. It's a great way for Pac-Maniacs to learn and practice strategies without having to re-start games from the beginning. Your score will, however, be re-set to zero if you continue.

III. USING THE CONTROLLER

CONTROLLER

Control Pad

CONTROL PAD

- Jump/Start Game
- Start/Continue/Reset
- Select Starting Level

On the title screen, select one or two players with the SELECT Button or UP and DOWN. Pushing START, A or B Buttons will cause the world select screen to be displayed. Use the SELECT Button or UP, DOWN, LEFT and RIGHT to select your starting world. (Note: You cannot select the *Jungle Steps*.) Press START, A or B Buttons to begin the game.

Once the game begins, use UP to move up, DOWN to move down, LEFT to move left and RIGHT to move right. The A or B Buttons allow you to jump. The START button pauses the game.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Reconnect the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a three-prong outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems
